# *Release of Doves & Butterflies*

The release of white doves is an elegant addition to a funeral. The release of a single dove represents the spirit being released onto their final journey. A pair of doves signifies the joining of two souls. Four doves symbolise the Holy Trinity guiding the deceased into heaven. There is also the option of six or twelve doves being released which represents the family saying farewell.

We are also able to offer the release of butterflies. Releasing live butterflies for a loved one is a unique way to honour and remember them. The butterfly has long been a symbol of freedom, love and new life or the beginning of a new journey. Please ask for further details.

# Ashes into Glass

Ashes into Glass is a unique service where you can have your loved one's cremation ashes in memorial paperweights and jewellery. Master craftsmen Bill Rhodes and James Watts create these by mixing the ashes into molten crystal glass with coloured crystals. Your Ashes into Glass memorial will be as precious as the memory of your loved one. You can keep them close to you always. Various colours are available as is the choice of Sterling Silver, Gold and White Gold.
